## POWERSTEERING

D3's Electric Power Steering (EPS) gives you comfort, control and feel-of-the-road, which is a technology that will define the future. It eliminates the need for a power steering pump, hoses, hydraulic fluids, and a drive belt and pulley on the engine. As a result, electric power steering is energy efficient and environmentally compatible while offering extras like simplified tuning, packaging flexibility and engine-off steering assist. Electric power steering also provides an advantage in regards to physical weight, too, as their far more simple setups reduce the weight over the front axle. When it comes to performance carts, electric power steering allows for more adjustability of the steering. It combines an electric motor with a computer and sensors to determine how much power to apply to the driver's steering depending on the speed of the vehicle. Additionally, this electronic control system goes beyond making steering easier.

# LIGHTING

***BeamAtTheDarkness!  
Eco-Friendly. Cost-efficient. LongLasting. Hassle-free.***

Our personal transportation vehicles come standard with LED lights: high beams, low beams, daytime running lights, turning signals and brake lights for a bright ride. Our lights are more powerful with less drain on your batteries, and deliver a 2-3 times wider field of vision than our competitors, so you can enjoy the ride worry-free, even after the sun goes down.

# TILT ADJUSTED WINDSHIELD

With a rotary switch, the tilt angle of the laminated windshield is easy to be adjusted. Then just enjoy the cool breeze skating through tilted windshield.

# FRONT TRUNK

Additional storage space under the hood.  
Pull the trunk unlock latch under the steering wheel (dashboard) to access the compartment.

# BUILT-IN REMOVABLE REFRIGERATOR

Top-quality and convenient, built-in removable refrigerator is usually best suited for our cart and also a great option for vehicle owners that want flexibility of fit.

# RETRACTABLE RUNNING BOARD

Heavy duty retractable running board for get on-board easily! Multiple control modes for your preference!

# LITHIUM BATTERY

- ULTRA SAFE
- NO MAINTENANCE
- ALUMINUM PACK
- 5-YEAR WARRANTY

The lithium-ion battery packs with integrated golf cart battery system. They are redesigned to replace the lead-acid batteries, which are available for drop-in replacement in golf carts easily.

The benefits of lithium-ion battery include lighter weight, shorter charging time, longer life, free maintenance and less electricity bills. Our battery has an integrated management system which includes an On/Off switch and a state-of-charge (SOC) gauge.
